

THE WAR ON SOBRIETY

By Daniel Crépault

Drug addiction destroys lives and over the past few decades it's become deadlier than ever. In *The War on Sobriety*, you'll read about what the changes in drug addiction and recovery have been like for people trying to get sober. The book is full of real stories of addiction, recovery, heartbreak, and hope. It's also full of easy-to-read information about the drug addiction scene over the past 40 years from the perspectives of addicts and treatment providers.

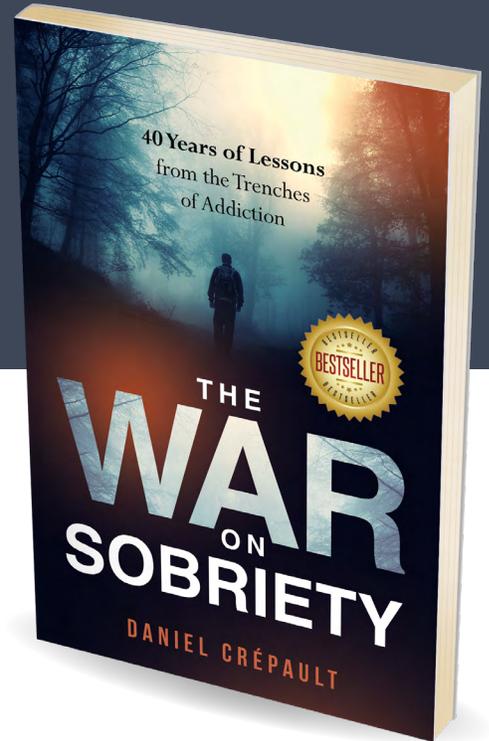

In the world of addiction recovery, the heartbreaking accounts and the joyful stories often come hand in hand. *The War on Sobriety* tells both. Interweaving stories and straight-forward explanations of changes in the drug scene, this book argues that what we need now more than ever is a renewed hope that those suffering from addiction can change their lives.

The War on Sobriety is based on the expertise and experiences of staff and graduates from Harvest House, a drug addiction treatment program operating in Ottawa, Ontario for over 40 years.

100% of the proceeds from this book go directly to Harvest House to help make sure that long-term treatment continues to be an option for those suffering from addiction today.

DR. DANIEL CRÉPAULT

Dr. Daniel Crépault knows addiction because he's lived it. At 17, he was a high school dropout who used drugs daily, had already been kicked out of a rehab program, and was in trouble with the police. Today, he's 17 years sober and has a PhD in criminology from the University of Ottawa. As the Program Director of Harvest House, a long-term addiction treatment program, he helps addicted young men change their lives like he did. *The War on Sobriety* is his first book.
